

when I get Sorenson VRS and I used them through Relay of Sorenson, it was too long way... then I decide to turn to reach SprintVRS, then few month later, they(sorenson) begin to block me to thought to SprintVRS and quick. But it still have same thing waited to reach Sorenson VRS.. Give up and I get other DLink Vp and reach SprintVRS quick... I do not like to wait to get into Sorenson VRS, or they call me back few minutes later.. not good to idea for wait toolong.. I only reach SprintVRS that is it... I really intrest to use SprintVRS stuff difference thing, what they have...
